

23

FORTY-FOURTH
ANNUAL ANNOUNCEMENT
OF
RUSH MEDICAL COLLEGE

Corner of Wood and West Harrison Streets,

CHICAGO.

FOR THE
SESSION OF 1886-87.

CHICAGO:
THE REVIEW PRINTING AND PUBLISHING CO.

1886.

BOARD OF TRUSTEES.

HON. L. C. P. FREER, PRESIDENT.

JOSEPH P. ROSS, M.D., VICE-PRESIDENT.

HON. GRANT GOODRICH, LL.D., SECRETARY.

MOSES GUNN, M.D., TREASURER.

HENRY M. LYMAN, M.D., ASSISTANT SECRETARY.

J. ADAMS ALLEN, M.D.

EDWARD L. HOLMES, M.D.

DE LASKIE MILLER, M.D.

JAMES H. ETHERIDGE, M.D.

CHARLES T. PARKES, M.D.

R. C. HAMILL, M.D.

HON. JOHN C. HAINES.

HIS EXCELLENCY RICHARD J. OGLESBY,

Governor.

HON. E. M. HAINES,

Speaker of the House of Representatives.

J. ADAMS ALLEN, M.D., LL.D.,

President of the College.

Ex-Officio.

FACULTY.

J. ADAMS ALLEN, M.D., LL.D., PRESIDENT,
Professor of the Principles and Practice of Medicine.
125 State Street.

DELAKE MILLER, PH.D., M.D.,
Professor of Obstetrics and Diseases of Children.
2011 Prairie Avenue.

MOSES GUNN, M.D., LL.D.,
Professor of the Principles and Practice of Surgery and Clinical Surgery.
2101 Calumet Avenue.

JOSEPH P. ROSS, A.M., M.D.,
Professor of Clinical Medicine and Diseases of the Chest.
428 Washington Boulevard.

WILLIAM H. BYFORD, A.M, M.D.,
Professor of Gynæcology.
125 State Street.

EDWARD L. HOLMES, A.M., M.D.,
Professor of Diseases of the Eye and Ear.
112 Clark Street.

HENRY M. LYMAN, A.M., M.D.,
Professor of Physiology and of Diseases of the Nervous System.
69 Dearborn Street.

JAMES H. ETHERIDGE, A.M., M.D., SECRETARY,
Professor of Materia Medica and Medical Jurisprudence.
1634 Michigan Avenue.

CHARLES T. PARKES, M.D.,
Professor of Anatomy, Descriptive and Surgical.
51 Lincoln Avenue.

WALTER S. HAINES, A.M., M.D.,
Professor of Chemistry, Pharmacy, and Toxicology.
Laboratory in College Building.

JAMES NEVINS HYDE, A.M., M.D.,
Professor of Skin and Venereal Diseases.
240 Wabash Avenue.

NORMAN BRIDGE, M.D.,
Professor of Pathology and Adjunct Professor of the Principles and Practice of Medicine.
550 West Jackson Street.

PROFESSORS OF SPECIAL DEPARTMENTS.

W. W. ALLPORT, M.D., D.D.S.,
Emeritus Professor of Dental Pathology and Surgery.

TRUMAN W. BROPHY, M.D., D.D.S.,
Professor of Dental Pathology and Surgery. 125 State Street.

E. FLETCHER INGALS, A.M., M.D.,
Professor of Laryngology. 64 State Street

ADJUNCT PROFESSORS AND LECTURERS.

J. SUYDAM KNOX, A.M., M.D.

Adjunct Professor of Obstetrics and Diseases of Children. 14 Loomis Street.

DANIEL T. NELSON, A.M., M.D.,

Adjunct Professor of Gynecology. 125 State Street.

PHILIP ADOLPHUS, M.D.,

Clinical Adjunct to the Chair of Gynecology. 638 Washington Boulevard.

ALBERT B. STRONG, A.M., M.D.,

Demonstrator and Lecturer on Anatomy. 533 West Monroe Street.

EUGENE W. WHITNEY, A.B., M.D.,

Lecturer on Surgery. 174 Warren Avenue.

ALFRED C. COTTON, M.D.,

Lecturer on Therapeutics. 193 South Wood Street.

EUGENE S. TALBOT, M.D., D.D.S.,

Lecturer on Dental Anatomy and Physiology. 125 State Street.

SAMUEL J. HOLMES, M.D.,

Lecturer on Pathological Anatomy and Path. Histology. 315 Fulton Street.

DANIEL R. BROWER, M.D.,

Lecturer on the Practice of Medicine. 65 Randolph Street.

HENRY P. MERRIMAN, A.M., M.D.,

Lecturer on Gynecology. 2237 Michigan Avenue.

JOHN A. ROBISON, A.M., M.D.,

Lecturer on Materia Medica. 428 Washington Boulevard.

EDWARD P. DAVIS, A.M., M.D.,

Lecturer on Physiology and Histology.

FREDERICK E. SHERMAN, M.D.,

Assistant Demonstrator of Anatomy.

WM. H. MORGAN, M.D.,

Clinical Assistant to the Chair of Diseases of Children.

THOMAS J. SHAW, M.D.,

Clinical Assistant to the Chair of Gynecology.

A. E. KAUFFMAN, M.D.,

Demonstrator of Chemistry.

ALBERT J. OCHSNER, B.S., M.D.,

Demonstrator of Physiology and Pathology.

HAROLD N. MOYER, M.D.,

Assistant to the Chair of Diseases of the Nervous System.

MR. FRANK JORDAN GOULD, College Clerk.

ANNUAL ANNOUNCEMENT.

For the Session of 1886—7.

THE FORTY-FOURTH ANNUAL SESSION OF RUSH MEDICAL COLLEGE will commence Tuesday evening, September 21, 1886, and will continue twenty-one weeks. The introductory address will be delivered by Professor Hyde.

Instruction in this institution is given by clinical and didactic lectures, practical work in the dissecting room and laboratories, and by repeated oral examinations.

THREE YEARS' COURSE.

The Faculty desires that as many as possible of the matriculates of this institution shall pursue their studies in the College during three winter and three spring terms. To encourage this more extended curriculum of College study, final examinations in descriptive anatomy, physiology, chemistry, materia medica and therapeutics, are open to three years' students at the end of the second winter session.

To each graduate who has studied, as above recommended, three full winter terms and at least one spring term, will be awarded, in addition to the diploma, a certificate of honor, signed by the Faculty of the College. All who intend to pursue this course are requested to signify such intention at the time of matriculation. A large proportion of the students matriculated in this College pursue a three years course of study, including both the winter and spring course of each year.

COURSE OF STUDY.

Students of the College and those who are pursuing their studies elsewhere with the intention of completing their colle-

giate course at this institution, are urged to follow the schedule of lectures and studies presented below.

The daily order of lectures and clinics at the hospitals and dispensaries is arranged, as far as possible, in accordance with this schedule, and not only to accommodate junior students, but also advanced students and practitioners who desire to review their studies.

As the Spring Course is a most important addition to the College work, the period of study required for graduation is divided into six terms. The following schedule of studies has been adapted to the wants and convenience of students during each period of their progress, whether they are in the College or preparing to enter.

There is reason to believe that it is of far greater advantage to the student, during his collegiate course, to study and carefully review a single text-book in each department of medicine, than cursorily to read several. Students are, therefore, recommended to confine their reading to those text-books, and those portions of the same, designated in the schedule as suitable for each term respectively.

TEXT-BOOKS FOR STUDY.

Wilson's (1880) or Gray's Anatomy. Holden's Dissector. Kirke's Physiology. Attfield's Chemistry. Bristowe's or Roberts Practice of Medicine. Druitt's Surgery, or Heath's Dictionary of Surgery, for beginners; Gross' or Erichsen's, for advanced students. Byford's Obstetrics. Byford's Diseases of Women. The National Dispensatory. Green's Pathology. Williams' or Carter's Diseases of the Eye. Satterthwaite on Histology. Goodhart on Diseases of Children. Bennett's, Flint's or Klein's Elements of Clinical Medicine. Ingal's Diseases of Chest, Throat and Nasal Cavities. Hyde's Dermatology. Rohé's Hygiene. Ross on Nervous Diseases.

Practitioners who receive students are recommended to direct their studies in accordance with the following schedule and to use the above named text-books.

SCHEDULE OF STUDIES.

First Term—Spring.

Anatomy—Cells, Fibers, Membranes, Viscera, and Long Bones. *Physiology*—Blood, Circulation, Respiration. *Inorganic Chemistry*.

Dissection of the Viscera ; study of the Long Bones. Surgical Clinics at the College, Hospitals and Dispensary.

Second Term—Winter.

General Anatomy—*Materia Medica*—*Physiology*—Alimentation, Digestion, Absorption. *Inorganic Chemistry*, with Laboratory work. *Surgery*—Ulceration and Suppuration and their results.

Surgical Clinics. Dissection of the external soft parts. Study of the Bones. Practice of Auscultation and Percussion of the Normal Chest and Abdomen.

Third Term—Spring.

General Anatomy—Bones—External soft parts. *Chemistry*—Laboratory work—Analysis. Urinalysis. *Physiology*—Secretion, Nutrition, Movements. *Surgery*—Surgical Dressings and Appliances. *Principles and Practice of Medicine*—Congestion, Inflammation, and its Results, Fever—*Materia Medica*, Diseases of Children.

Exercises in Auscultation and Percussion. Dissection of the external soft parts. Special Dissection of the Pelvis, and of its organs, and of the Fœtus. Medical and Surgical Clinics.

Fourth Term—Winter.

General Anatomy—Regional Dissections, Brain and Spinal Column, Histology. *Physiology*—Nervous System, Reproduction. *Organic Chemistry*—Laboratory. *Materia Medica*, *Surgery*, *Principles and Practice of Medicine*, *Obstetrics*—Generation, Fœtal Developement, Normal Parturition, Dermatology and Venereal Diseases.

Exercises in bandaging and application of splints. Operations

on the Cadaver. Anatomy and Physiology of the Eye and Ear, Laryngology. Exercises in Auscultation and Percussion. Medical and Surgical Clinics. *Pathology* and Post Mortem Examinations, Dental Pathology, Medical Jurisprudence.

Fifth Term—Spring.

Anatomy, Physiology, Chemistry, Materia Medica, Surgery, Principles and Practice of Medicine, Obstetrics, Hygiene, Medical Jurisprudence, Genito-Urinary Diseases.

Regional Dissections, Chemical Laboratory Work, Toxicology and Special Researches.

Clinics, general and special; Diseases of Women and Children. *Pathology* and Post-Mortem Examinations.

Sixth Term—Winter.

All Lectures and Clinics; Regional Dissections; Post-Mortem Examinations. General Review.

Students who have passed the final examination in the elementary branches at the end of the fourth term, may devote their third year specially to the practical branches and to clinics.

PRACTICAL CHEMISTRY.

The College is provided with a thoroughly furnished students' laboratory for practical chemistry.

Professor Haines, assisted by the Demonstrator of Chemistry, will give a special course in practical chemistry, devoting to the work three afternoons of each week. The course will include a series of experiments in qualitative analysis, urinalysis, and toxicology. The student will make the analyses and examinations himself, under the supervision of the Professor.

Since a course in practical chemistry has been made one of the requirements for graduation in this College, students will find the spring term a most convenient time for the pursuit of this study.

PRACTICAL ANATOMY.

The best advantages are afforded for the practical study of anatomy, in all its branches. Material in abundance is provided. The most recent and approved means of illustration by the calcium light will be used.

PRACTICAL PHYSIOLOGY AND PATHOLOGY.

The Laboratory of Physiology and Pathology is abundantly supplied with microscopes and other apparatus for study, and will be open for work during the winter and spring courses.

CLINICAL INSTRUCTION IN THE COLLEGE BUILDING.**Medicine and Surgery.**

TWO SURGICAL CLINICS will be given by Professor Gunn each week, one on Tuesday and one on Saturday; a clinic on DISEASES OF THE CHEST, by Professor Ross, every Wednesday; one on the DISEASES OF THE NERVOUS SYSTEM, by Professor Lyman, every Thursday; a MEDICAL CLINIC, by Professor Bridge, every Monday—all continuing throughout the year.

Diseases of Children.

Professor Knox will give a special clinic, each Thursday throughout the year, on DISEASES OF CHILDREN.

Gynecology.

Professors Etheridge and Nelson and Dr. Adolphus will hold a daily clinic in the College Building, for the special instruction of the graduating class in CLINICAL GYNÆCOLOGY.

The class will be so subdivided into small sections that each student will have extensive opportunities for the practical study of this important subject.

One clinic will be given each Wednesday in the amphitheater by Professor Nelson.

Skin and Venereal Diseases.

Professor Hyde will give a clinic on SKIN AND VENEREAL DISEASES at 3 P. M. of every Monday throughout the year, in the upper amphitheater of the building. The extensive collection of plates and photographs purchased by the College, has been arranged in cabinets, on the same floor with and adjacent to the amphitheater, with special view to the illustration of this department.

Diseases of the Eye and Ear.

Professor Holmes, with the assistance of Dr. W. T. Montgomery, will give at 3 P. M. every Wednesday throughout the year, a clinic, in the amphitheater, on DISEASES OF THE EYE AND EAR.

Diseases of the Throat and Nares.

Professor Ingals will give a clinic on Diseases of the Throat and Nose at 3 P. M. every Friday, in the lower lecture room. A large number of patients from which to select rare or typical cases affords unusual facilities for studying this class of diseases.

THE PRESBYTERIAN HOSPITAL.

The present wing of the hospital, contiguous to the college, was completed in 1884. It has beds for sixty patients, and is perfectly equipped for the care of every form of non-contagious disease. It is expected that the main structure of the hospital will be completed during the coming season, thus affording capacity for two hundred and fifty to three hundred beds.

The following named gentlemen compose its staff:

MEDICAL STAFF.

Consulting Physicians.—J. Adams Allen, M.D., R. C. Hamill, M.D.

Attending Physicians.—Joseph P. Ross, M.D., H. M. Lyman, M.D., Norman Bridge, M.D., E. P. Davis, M.D.

Consulting Surgeons.—R. N. Isham, M.D., R. G. Bogue, M.D.

Attending Surgeons.—Moses Gunn, M.D., C. T. Parkes, M.D., D. W. Graham, M.D., E. W. Whitney, M.D.

Consulting Gynecologist.—W. H. Byford, M.D.

Attending Gynæcologists.—J. H. Etheridge, M.D., H. P. Merriman, M.D., Philip Adolphus, M.D.

Physicians for Diseases of Children and Accoucheurs.—De Laskie Miller, M.D., J. S. Knox, M.D.

Attending Physicians for Skin Diseases.—J. N. Hyde, M.D., R. D. MacArthur, M.D.

Attending Ophthalmic and Aural Surgeons.—E. L. Holmes, M.D., Lyman Ware, M.D.

Attending Physician for Diseases of the Throat.—John A. Robison, M.D.

Resident Physician and Superintendent.—H. B. Stehman, M.D.

THE COUNTY HOSPITAL.

(Opposite the College Building.)

The hospital, standing on a block of twelve acres of land, was erected at a cost of nearly a million dollars.

Two new Pavillions have been recently erected, which have greatly increased the capacity of this commodious structure.

The amphitheater of the hospital, with a seating capacity for six hundred persons, is the room in which all the surgical, medical and special clinics are held. More than two thousand patients were treated at the hospital during the past year, and hundreds of important surgical operations were performed, of which many were capital amputations.

In the rear of the amphitheater is the Necropsy Theater, in which are held all the post-mortem examinations of the hospital. Ample opportunities are given for the study of the gross appearances produced by disease.

THE ILLINOIS CHARITABLE EYE AND EAR INFIRMARY.

This institution affords the largest facilities for the clinical study of Diseases of the Eye and Ear.

During the past year more than 3,200 patients received treatment at the Infirmary, more than 600 operations were performed.

Regular clinics will be given during each week of the session by Drs. Holmes, Hotz, Ware, Montgomery, Schæfer, Gardiner, and Bishop.

THE CENTRAL FREE DISPENSARY.

Excellent opportunities are offered to students and practitioners, for clinical instruction at the Central Free Dispensary,

which occupies the first floor of the College building. Many thousand patients received treatment in this Dispensary during the past year. Patients are classified according to their diseases. A wide field is here afforded for the study of specialties.

The prescribing hours are from 2 to 5 P. M. each day.

DISEASES OF THE TEETH AND MOUTH.

Professor Brophy and Dr. Talbot will give weekly clinics in this department of the Dispensary.

A large number of cases are treated at these clinics, which are of no less interest and practical importance to the student of medicine and surgery than to the dentist.

HOSPITAL INTERNES.

Positions of Interne in the Cook County, the Presbyterian, the Michael Reese, and the St. Luke's Hospitals, and the Illinois Charitable Eye and Ear Infirmary, are open each spring to students (who have graduated), through a competitive examination held by the respective hospital staffs.

The occupants of these positions receive their board and lodging, and acquire an extensive experience in every department of practical medicine and surgery.

SPRING COURSE.

The faculty directs special attention to the great advantages offered by the Spring Course. This begins the 23rd day of February, at 8 A. M., and continues fourteen weeks. It consists of lectures and recitations at the College, practical work in the laboratories and dissecting-room, and clinical instruction in the hospitals and dispensaries.

During the last week of each term the students will be examined, and will receive certificates of attendance and grade in examination. The grade will indicate the average standing in all the departments attended. Students who prefer it, may include only a part of the branches taught, according to the schedule of studies above presented, and be relieved from examinations in other departments. In the studies taken, a correspondingly higher standing will be demanded for a given grade.

This course cannot be considered as a "*course of lectures*," in the requirements for graduation.

Nearly three hundred students matriculated during the spring session of 1886.

EXAMINATIONS.

Examinations for the degree of Doctor of Medicine are held only once annually, during the last week of the winter session.

Students, however, who will enter the College for at least three full winter terms of study may receive their final examinations in Descriptive Anatomy, Physiology, Chemistry, *Materia Medica* and Therapeutics at the close of the second winter term. This will enable them to devote special attention to clinics and the practical branches during the third winter session. Students who take the three winter courses and desire to be examined in the elementary branches, as above indicated, will be required to advance one-half of the examination fee. (See *Fees*, page 14.)

GRADUATION.

The following are the requirements for the degree of Doctor of Medicine.

1st. The candidate must be twenty-one years of age, and must give satisfactory evidence of possessing a good moral character, (*which includes unexceptionable conduct while at the College*), with such primary education as is clearly requisite for a proper standing with the public and the profession.

2d. He must have pursued the study of medicine three years, and have attended at least two full courses of lectures, not delivered in one twelve-month, of which the first one may have been in some other recognized medical college, but the last must have been in this institution. The lectures of the spring term cannot be considered as a "*course of lectures*" in this requirement.

3d. He must have received clinical instruction during at least two college terms.

4th. He must have pursued the study of Practical Anatomy, under the direction of the Demonstrator, and to the extent of having dissected each region of the body.

5th. He must have taken one course in Practical Chemistry, under the direction of the Professor of Chemistry.

6th. He must have taken one practical course in the Laboratory of Physiology and Pathology.

7th. He must notify the Secretary of the Faculty of his intention to become a candidate, depositing the amount of the examination fee with the Treasurer, on or before the 20th day of January.

8th. Every candidate must undergo a full and satisfactory written or oral examination on each branch taught in the College.

FEES FOR THE REGULAR WINTER COURSE.

MATRICULATION FEE (GOOD TILL THE FOLLOWING MARCH)	\$ 5.00
LECTURE AND CLINIC FEES FOR THE COURSE, INCLUDING THE PRESBYTERIAN HOSPITAL TICKETS	80.00
ADMISSION TO THE DISSECTING-ROOM, INCLUDING THE DEMONSTRATORS TICKET, TILL THE FOLLOWING MARCH, MATERIALS FREE.....	10.00
ADMISSION TO CHEMICAL LABORATORY—MATERIALS AT COST PRICE.....	5.00
ADMISSION TO LABORATORY OF PHYSIOLOGY AND PATHOLOGY—MATERIALS AT COST PRICE	5.00
ADMISSION TICKETS TO THE DISSECTING ROOMS AND LABORATORIES ARE ISSUED ONLY TO HOLDERS OF THE GENERAL TICKET.	
FINAL EXAMINATION—FEE NOT RETURNABLE.....	30.00

Three years' students, examined at the end of their second winter, must advance one-half of this fee.

There is no fee for graduation. When fully qualified, the candidate is entitled to the degree and the diploma in testimony thereof.

From Alumni of this College, and from its students who have taken and paid for two full courses of lectures, the Matriculation Fee only (\$5.00) will be required. From Alumni of other recognized medical colleges, the Matriculation Fee and one-half Lecture Fee will be required.

FEES FOR THE ANNUAL SPRING COURSE

MATRICULATION FEE (GOOD TILL THE FOLLOWING MARCH) \$ 5.00

LECTURE TICKETS..... 20.00

THIS AMOUNT WILL BE DEDUCTED FROM THE FEES OF THE NEXT FOLLOWING WINTER SESSION.

GRADUATES OF THE COLLEGE ARE ADMITTED ON PAYMENT OF THE MATRICULATION FEE ONLY; GRADUATES OF OTHER REGULAR MEDICAL COLLEGES ON PAYMENT OF MATRICULATION FEE AND TEN DOLLARS.

FEE FOR PRACTICAL CHEMISTRY (STUDENTS WILL ALSO PAY COST PRICE FOR CHEMICALS USED)..... 5.00

ADMISSION TO THE DISSECTING-ROOM—MATERIAL AT COST PRICE..... 5.00

FEE FOR ADMISSION TO THE LABORATORY OF PHYSIOLOGY AND PATHOLOGY—MATERIAL AT COST PRICE 5.00

TICKETS FOR THE COOK COUNTY HOSPITAL AND FOR THE EYE AND EAR INFIRMARY, GOOD FOR ONE YEAR, EACH 5.00

Certificates of attendance will be issued at the end of each term to such students as have attended the lectures, *provided* their conduct while at the College has been unexceptionable, and not otherwise.

DIRECTIONS TO STUDENTS.

Students will matriculate, and obtain their tickets at the College, from the Treasurer, Professor GUNN, or from Mr. FRANK J. GOULD, College Clerk.

Students may select their seats in the lecture room when they take their tickets, or the Treasurer will select seats for them, on receipt of the matriculation fee, previous to the opening of the session; but seats thus pre-empted, if not occupied before the end of the second week of the winter term, will be forfeited and assigned to students who are present to occupy them.

The College Clerk may be seen in the College building, and will aid in obtaining boarding-places, rooms, etc.

Students receive their mail at the College building, twice daily.

For further information address the Secretary, Professor J. H. ETHERIDGE, No. 1634 Michigan avenue.

BOARD AND ROOMS.

Good board, with rooms, and all the usual accommodations, can be obtained at rates varying from \$3.00 to \$5.00 per week. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates. Day board, \$2.50 to \$4.00 weekly.

TEXT BOOKS.

Students will find a good assortment of medical books and surgical instruments in this city. The following books of reference, among others, are recommended:

Chemistry.—Attfield.

Anatomy.—Quain, Wilson (1880), Gray, Holden's Dissector, Weisse.

Physiology.—Kirke, Foster, Carpenter.

Materia Medica and Therapeutics.—The National Dispensatory, Ringer, Binz.

Medical Jurisprudence.—Elwell, Taylor, Beck, Casper.

Obstetrics.—Playfair, Lusk.

Diseases of Women.—Byford, Barnes.

Diseases of Children.—Smith, Goodhart.

Surgery and Surgical Pathology.—For first course students, Druitt, or Heath's Dictionary of Surgery.—For advanced students, Gross, Erichsen, Holmes, Paget.

Practice of Medicine.—Flint, Bristowe, Watson.

Nervous Diseases.—Rosenthal, Bramwell, Ross.

Pathology.—Wagner, Billroth, Ziegler, Coats.

Clinical Medicine.—Bennett, Trousseau.

Diseases of the Heart.—Flint, Walsh.

Diseases of the Lungs.—Walsh, Fuller.

Physical Diagnosis and Laryngology.—Ingals.

Surgical Anatomy.—MacLise, Godlee.

Microscopical Anatomy.—Stricker, Satterthwaite, Shæfer.

Ophthalmology.—Williams, Wells, Stellwag, Carter.

Otology.—Roosa, Burnett, Buck.

Dermatology.—Hyde.

Hygiene.—Buck, Parkes, Rohé.

PRELIMINARY EXAMINATIONS.

In accordance with the announcement heretofore made, a preliminary examination will be required hereafter as a condition of admission to the regular winter course of lectures.

Gentlemen who are graduates of a literary or scientific college, academy, or high school, or who have passed the entrance examination to a literary college in good standing; who have a county or State teacher's certificate; graduates in medicine; previous matriculates of this college; and students who desire to pursue a special course of study—other than for the purpose of securing the degree—will be exempt from this examination.

The examination will include the writing of a brief paper on a subject to be given; and an examination in the elementary principles of physics * and mathematics as taught in the public schools of the country. The written paper will be a sufficient indication of the student's knowledge of orthography and grammar, as well as of the subject given.

Students may take this examination either at the beginning or end of the spring term, or at the beginning of the regular winter session.

Gentlemen are advised to acquire, before coming to the College, the documentary evidence of their preliminary education, as indicated above, and thus save themselves the necessity of an examination.

Arrangements are made for holding this examination in parts of the country at a distance from Chicago.

Students who have completed a full course of study equivalent to that required for admission to this College, may, by special arrangement, be admitted on the certificates of their instructors.

It is important to notice that the diplomas of such schools as do not require an examination preliminary to entrance, are not accepted as qualifying for practice in Illinois.

* Or Physics as taught in Fowne's "Chemistry," Steele's "Fourteen Weeks in Natural Philosophy," or any other similar text-book.

GRADUATING CLASS OF 1886.

OFFICERS OF THE CLASS.
